

Mrs. Redding Is In Our Corset Department This Week

principally to give expert advice to such of our customers who believe that a good appearance is a passport to the admiration of their friends.

LET HER SHOW YOU the individual style in the

MODART

Front Laced Corset

In a MODART Corset you will get soft, pliable MODART boning, lightness of weight, fineness of texture, great strength in material, neatness, and beauty of finish, expert workmanship and pleasing lines.

The MODART allows freedom of movement, gives grace and youthfulness to the figure, induces development in slender figures and equally distributes any excess flesh a wearer may possess. There are a few of the many things every MODART wearer enjoys. You will fully realize these qualities even in a trial fitting.

Let Mrs. Redding show you by actual personal illustration.

LAST & THOMAS

OFFICERS FAIL TO GET NEGRO

The local police are unable to understand the failure of the Kansas authorities to take further action regarding the extradition of George Skaggs, the negro, who is believed to be wanted at London, Kan., on a statutory charge. Skaggs was arrested on description in this city a week ago by Detectives Charles Pincock and George B. Wardlaw.

When notified of the arrest the chief of police at London informed the local officers that he would take immediate steps to apprehend the negro for arraignment in Kansas. Since that time no information has been received. The local police feel that they will not be able to hold Skaggs many days longer without placing some charge against him.

SALE OF TIMBER IN BIG PINEY

District Forester E. A. Sherman has approved the estimate for the sale of 1,000,000 board feet of lodge pole pine

and Engleman spruce saw timber on the Wyoming national forest, the purchaser being Todd James of Big Piney, Wyo. The price to be paid by Mr. James is \$2 per thousand, or \$2,000 for the entire estimate. Of this amount \$700 will eventually go to the schools and roads of Wyoming.

The purchaser of the timber will establish his mill on one of the tributaries of the South Piney creek, marketing the manufactured lumber at Big Piney and other settlements in that locality. This is the first important sale of saw timber in the Big Piney region, and it is believed by the forest officials that it will open a large area of timber-sawing operations.

DARING ROBBERY IN SALT LAKE

Salt Lake, Sept. 1.—One of the most daring burglaries that has been perpetrated in Salt Lake for some time occurred about 3:30 o'clock yesterday morning when three masked men entered an apartment in the Henry flats, 243 Third East street, where Harry A. Factor was visiting friends, and robbed him of money and jewelry worth \$2000. Factor awoke when the light was turned on by one of the two masked men. He grappled with

one, but the other struck him on the head and knocked him down.

Factor shouted for help, but, instead of assistance, a third robber, the "lookout," who was waiting outside, entered the room. After securing his money and other valuables, the holdups forced a blanket over Factor's head and departed by the rear door, the way they entered.

Factor is the western manager of Albert Pick & Co., of Chicago. He said yesterday that he went to a cafe after watching the parade Saturday night and that he was wearing a novelty stud of diamonds and rubies and a large solitaire diamond ring. He believes that the burglars saw his jewelry and followed him, intending to hold him up.

According to Mr. Factor, he was awakened about 3:30 o'clock. At the foot of the bed stood two masked men, one tall and the other short. Each had him covered with a revolver.

"Hold up your hands," commanded the tall man.

Factor jumped out of bed and grappled with the big man, throwing him against the dresser. The small man struck him, probably with the butt of a gun, felling him to the floor. They forced him to stand face to the wall while they searched the room.

A St. Louis teacher slept 150 hours and woke refreshed. But she's popular with the scholars.—Knoxville Sentinel.

Miss Bond's screams finally attracted her cousin, who was asleep in the house, and together they went in search of the police. A policeman was found, but so much time had elapsed that his efforts to locate the holdup man were futile and the detective department was notified.

Miss Bond suffered bruises about her neck, where her assailant seized her, and also a severely sprained finger, but otherwise was uninjured. The detectives have so far been unable to get any trace of the man, owing to the meager description.

Salt Lake, Sept. 1.—Miss Nancy Bond was cashier at the Wilson hotel for about seven years and left Salt Lake about six weeks ago to spend her vacation with her father, Henry M. Bond, formerly of Ogden, who is now in the National Soldiers' home at Sausalito, Cal. Several letters were received from her by the Wilson management and in the last she asked for an extension of her vacation in order to work for a short time as cashier of the Fairmont hotel in San Francisco.

This permission was granted, as Miss Bond has always been one of the most trusted employees of the local hotel. A. Fred Wey, proprietor of the Wilson, said last night that he expected Miss Bond to return to resume her old position in about six weeks. Her father has been at Sausalito for about two years.

Miss Bond suffered bruises about her neck, where her assailant seized her, and also a severely sprained finger, but otherwise was uninjured. The detectives have so far been unable to get any trace of the man, owing to the meager description.

DROWNS WHEN BUGGY FALLS INTO DAM

Wilbur Robbins, age 22 years, a resident of Eden, was drowned in the Utah Light & Railway power dam of Ogden canyon at 10:30 o'clock last night and his two companions, Harvey and Ernest Shupe, escaped a similar fate only by a narrow margin. They were thrown into the water when the horse they were driving shied at a terrific clap of thunder and threw the buggy over the embankment. The body was not found until 3 o'clock this morning by deputies and others who worked all night.

Robbins and the two Shupes were returning home from Ogden in their rig. Thunder had been crashing about them for several minutes and the horse was quite nervous. When they reached the point where the embankment is quite steep, and the road narrow, a bolt of lightning followed by a crash of thunder occurred close to the already nervous horse. The horse gave a startled lunge to the side and the buggy and occupants toppled over, dragging the horse along.

Harvey Shupe reached the shore and hurried to the Gilles store at the mouth of Wheeler Creek canyon where he secured a lantern and aid. Ernest Shupe was pulled from the water, but the search for Robbins brought no results. It is presumed that he was caught under the buggy in such a position that he could not escape.

Even when the horse and buggy were pulled out the body of Robbins could not be found. The telephone calls were out of commission in that locality so it was necessary to go to the Hermitage to notify the sheriff's office of the accident. After men in boats had dragged the spot for several hours, the body was found at 3 o'clock this morning and removed to the Robbins' home in Eden.

The dam was just being filled, after remaining empty all summer. The gates had been closed only since Saturday night. At the spot where the accident occurred, a party of three went over the embankment last summer.

SALT LAKE WOMAN ROUGHLY HANDLED

San Francisco, Aug. 31.—Miss Nancy Bond, a recent arrival from Salt Lake City, who has for the past ten days been employed as dining room cashier at the Fairmont hotel, was held up and robbed, late Saturday night, of a handbag containing \$28 and a bank book showing deposits of \$100, as she was entering her home.

Miss Bond was returning from her work when she noticed a man following her down Seventh street. Although she suspected that he was about to accost her, she did not hurry or cry out until she saw that he turned into a side street after her, at which time she broke into a run for her home, a few doors above. The man caught up with her just as she reached her doorway, seized her and snatched at her handbag. After a struggle which lasted several minutes, she succeeded in throwing the man to the sidewalk and wresting the bag from his grasp.

Miss Bond's screams finally attracted her cousin, who was asleep in the house, and together they went in search of the police. A policeman was found, but so much time had elapsed that his efforts to locate the holdup man were futile and the detective department was notified.

Miss Bond suffered bruises about her neck, where her assailant seized her, and also a severely sprained finger, but otherwise was uninjured. The detectives have so far been unable to get any trace of the man, owing to the meager description.

o'clock. The interment will be made in the cemetery at that place.

FIRE IN TAILOR SHOP

Park City, Aug. 31.—A fire broke out in the Gasparac tailor shop yesterday morning which for a time was threatening. Mr. Gasparac, while cleaning a coat with gasoline, opened the rear door of his building. This caused a draught, which quickly carried flames from the stove to the gasoline-soaked coat and set it on fire.

Gasparac ran into the street with the burning coat and quickly returned and carried out two cans of gasoline. He was badly burned about the hands and arms, and it will be some days before he will be able to resume work.

A fire alarm was turned in, but the fire had been extinguished shortly after the fire whistle had been blown and it was not necessary to turn the water into the building.

HORSE AND BUGGY HAVE BEEN STOLEN

Wallace White, residing at Farr West, reported to the police and sheriff's office yesterday that a horse and buggy, valued at \$200, were stolen from Sylvan park last night. Although the outfit is believed to have been taken by "joy-riders," no trace of either the horse or buggy had been discovered.

CAMINETTI JUROR IN AUTO ACCIDENT

San Francisco, Aug. 31.—A new jury to try F. Drew Caminetti on the white slave charge may be necessary as the result of the injury yesterday of Juror William H. Adams, whose foot was crushed in an auto accident on the San Jose road.

Adams' condition was doubtful today. Physicians at the O'Connor sanitarium in San Jose, where he was taken, could not say when Adams would be able to walk.

Judge Van Fleet of the United States district court was inclined to think that a new jury would be necessary if Adams does not recover within a few days. He intimated that he would postpone the case, which is called for Tuesday, if there was a chance of a quick recovery.

When Adams was given a holiday after adjournment of court Friday, he planned a trip to San Jose with E. A. Newton, a gun manufacturer of San Francisco.

Auto Turned Over.

As they were spinning along the road half way between San Jose and Oakland, the car skidded on a wet road and turned over. Adams was driving. Newton was thrown out on his head and received a severe cut. It is possible that he sustained a fractured skull.

Adams' foot caught beneath the seat and was badly crushed. The injured men were picked up by a party of Elks who came upon soon after the accident. They were taken to San Jose.

SLAYER OF OFFICER PLEADS NOT GUILTY

Pocatello, Ida., Aug. 31.—Ulysses G. Bureup, the man who shot and killed Deputy Sheriff W. J. McFadden at Grace on August 23, was brought to Pocatello Friday night, heavily manacled, by Sheriff Lowery and his deputy, James Lewis.

In the capture of his man Sheriff Lowery proved himself to be an officer of unusual ability. The chase covered a period of six days, during which time he never let the man escape. He finally captured Bureup in Coeur, ev.

Yesterday Bureup was arraigned on the charge of murder in Probate Judge Bell's court. The complaint was prepared and filed by Acting Prosecuting Attorney Merrill. The accused pleaded not guilty to the charge and was given time to secure counsel. His preliminary hearing will be had later.

SULZER TRIAL WILL COST STATE DEARLY

Albany, N. Y., Aug. 31.—The Sulzer high court of impeachment threatens to cost the state \$100,000. It became known here today certain senators are contending that the senators taking part in the proceedings that begin on September 18, to remove the governor, will be entitled to pay received by the judges of the courts of appeals who participate in the trial—\$40 a day—instead of \$10, their pay as legislators.

At the lower basis the item of expense to the state for compensation of the forty-nine senators would amount to \$490 a day, and at the higher rate to \$1960 a day. The latter figure would make the senatorial expense item alone for a thirty days' session \$60,000.

The compensation for the nine members of the assembly, "the steering committee," at the same rate would add \$10,000, and the expense of attendants, witnesses, stenographers and other necessary adjuncts to the court are likely to bring the total up to \$100,000.

Friends of Mr. Glynn today confirmed the charge in his newspaper, the Times-Union, that Sulzer tried to get him to go to C. F. Murphy just before the governor set out upon his direct primary campaign, to assure the Tammany leaders that what he intended to say in his speeches would be "good politics," but must not be taken as any lack of fealty to Murphy.

GREEK DIES FROM ASSAULT WOUNDS

Salt Lake, Sept. 1.—John Pogkas, the Greek miner, 25 years old, who was terribly beaten and robbed Wednesday morning, died at 8 o'clock last night at St. Mark's hospital, as the result of his injuries. The body was removed to the Evans undertaking

establishment. Funeral arrangements will be held pending word from his brother, Demosthenes Pogkas, of Hialeah.

Pogkas was robbed of \$450, and when picked up by his companions was unconscious. Several wounds in the head had been inflicted with a pick. The alleged assailant of Pogkas is under arrest at Price, Utah.

STORM SWEEPS PROVO

Provo, Aug. 31.—This city was visited by a violent electrical storm at 7 o'clock this evening. Lightning was frequent and rain poured steadily for about half an hour. Four transformers of the electrical system were temporarily put out of commission and the city was in total darkness. One transformer was repaired after a short time, but most of the city was in darkness for more than an hour. Aside from the inconvenience of the darkness, the damage from the storm was not heavy.
